

4.2.1

The Central Library at our College is a vital resource for learning, research, and personal growth. Founded in 1969, the institution has experienced significant growth in both physical size and academic scope. It provides a generous space that can accommodate up to 100 people. The library is furnished with a total of eight computers that are equipped with both Wi-Fi and LAN capabilities, allowing users to access the internet at a high speed of 200mbps. The Library is a capacious and autonomous structure equipped with essential amenities such as proper air circulation, furnishings, fans, and dedicated restrooms. It houses a comprehensive collection of books and magazines pertaining to all the academic programmes offered by the college. The library is overseen by a librarian and supported by three assistants. The library has adopted modern technology by implementing bar coding technology to partially automate its book catalogue, and utilising an Integrated Library Management Software (ILMS) package to streamline processes such as book issue, returns, and renewals. The library's dedication to technological progress is evident in its e-Lib, a cutting-edge Integrated Library Management System (ILMS) that improves the user's experience. This comprehensive system enables efficient resource retrieval and offers real-time information on resource accessibility. The library possesses a collection of 21,941 texts and references, along with 10 journals and 10 newspapers. By being an active member of INFLIBNET N-LIST, the library gains access to an extensive digital collection consisting of more than 6,529 e-journals and over 250,872 e-books covering a wide range of subjects. The library provides computerised Catalogue Search Services using an Online Public Access Catalogue (OPAC), allowing users to conveniently access bibliographic information about the available books. The library houses rare books of historical importance, granting students and faculty the opportunity to access and utilise these valuable resources for their research pursuits. The library offers a wide range of services, such as computerised book borrowing and returning, renewal services, reference help, journal subscriptions, and access to an open reading area. It actively participates in the INFLIBNET N-LIST programme, providing digital resources such as past question papers. The library places great importance on safety and security, and has implemented CCTV surveillance to protect its valuable resources. The stock verification process is exclusively conducted by the teaching faculty at the conclusion of the year. Upon the completion of the stock verification, the report containing the most up-to-date statistics is submitted to the Principal.
