Objective of the Workshop

The objective of the workshop is to enhance teaching and learning quality by equipping educators with effective strategies for implementing and assessing Outcome-Based Education (OBE) practices.

Delivering education without achieving desired outcomes is unproductive for both learners and society. In response to the declining quality of education systems globally, the Washington Accord emphasized the adoption of Outcome-Based Education (OBE). OBE places a strong focus on defining clear expectations of what students should know and be able to do by the time they complete their education. This approach ensures that all students reach specific learning goals and acquire the skills and knowledge expected from their formal education. OBE is an educational theory that aligns every component of the educational system with intended outcomes.

At Vijayanagar College, Hosapete, we are deeply committed to maintaining excellence in education. Internal Quality Assurance Cell (IQAC) assesses the program outcomes attainment of students and conducts gap analysis.

Target Group

Faculty: Enhance teaching strategies and assessments through Outcome-Based Education (OBE).

Academic Administrators: Foster continuous improvement and accountability in the teaching-learning process.

IQAC Members: Strengthen OBE practices to enhance institutional quality.

Curriculum Designers: Align learning outcomes with curriculum objectives and assessments.

Quality Assurance Professionals: Improve understanding of OBE in meeting accreditation standards.

This workshop supports all stakeholders committed to quality education and teaching excellence.
