Parent as a Stakeholder:

UGC has identified necessary four pillars in shaping of a student's education. They are, the Management, The Teaching faculty, The principal and administrative staff and undoubtedly the Parents themselves. These four pillar are known as Stakeholders, wherein student is the primary stakeholder.

Parents need to recognize their responsibility in monitoring, guiding and co-operating towards their daughter's academic progress and regular attendance. Towards achieving this, parents are requested to furnish correct address for any further communication regarding the progress and behavior of their daughter. Suggestions and complaints are always welcomed from parents towards improvement of academic and administrative activities.
